

The Enschede multiplier event was on 2019, May 9 in the [Studios of the regional broadcasting company](#) for the community of SME entrepreneurs who have a need for training policies in the fields of art, tourism and regional identity. The IV4J methodology was tuned to the specific needs of NGO's and local enterprises who typically miss the critical mass for course-based curricula or PBL. The number of participants was 38. Only 18 of them signed the list for several reasons; Some had to leave very quickly, some had problems to disclose their names with personal data.

The overall empathy with the presented approach was positive. The reactions in questions and comments were pointing to adopting a new project plan where specialized templates for the tourist industry could be developed.
